10. [REDACTED] - LLM) Wheaton Byers, Executive Secretary, PFIAB, called with respect to the material I sent to him on the Agency's exemption from the Advisory Committee legislation (P. L. 92-463) saying that it would be useful when and if PFIAB is hit on this subject.

STAT

12. [REDACTED] - PLC) Met with Jim Kronfeld, Staff Counsel, Foreign Operations and Government Information Subcommittee, House Government Operations Committee, and discussed our proposed legislative history language for inclusion in the conference report on H. R. 12471, which amends the Freedom of Information Act. Kronfeld suggested a change to make it clear that the Director's protection of Intelligence Sources and Methods is dictated by statute and does not have the latitude for discretion allowed under E.O. 11652. According to Kronfeld, the House committee will press for its version of exemption (b)(1) which does not include the word "statute." This allows a clear basis for protection of information by statute provided for in the present exemption (b)(3). We also discussed H. R. 12206, now in mark up. The bill grants an individual right of access to records concerning him maintained by Government agencies. Kronfeld requested that we meet and discuss in more detail the problems faced by the Agency to support our request for a total exemption. He was not certain that the Committee would grant the Agency a total exemption, but he is prepared to present the strongest arguments in our behalf.
